Due to problems in normally shipping to certain countries, some nations are not on our normal "ship to" list. This is usually due to the relatively high number of fraudulent orders we receive from this country, or the problems we face in shipping to this country. (Some typical countries include Nigeria, Estonia, Ghana, Romania, and others). You may contact us directly (via phone, fax, snail mail, online, email, or other methods) if you are unable to place an online order with us, and you have a legitimate order.
